Setting the Stage

- *The idea: take the family and get away for a 1-2 day “family retreat” that helps your family set goals, study together and have some fun*
- The first step: just **have the conversation** with your wife
- Agree on this in concept only
- Then start praying about timing, format, length and other details
- Let the Holy Spirit guide you to the right “kind” of event for your family given it’s stage, history and ages of your children

Family Retreat Framework

- **STUDY:** *focus on something Biblical and relevant to your family*
- **PAUSE:** *unplug from technology and the “outside world” for a time*
- **PRAY:** *spend time individually and together praying as a family*
- **PLAY:** *give yourself ample time to play games or enjoy the outdoors*
- **PLAN:** *use the time to think ahead and set goals for the coming year*
- **PRAISE:** *play worship music and conduct a “Sunday service”*

Six-Step Family Retreat Framework
